About Morrisons

**Foodmakers and shopkeepers,
together we make Morrisons.**

From a Bradford market stall to the UK's 4th largest supermarket chain and the UK's 2nd largest fresh food manufacturer.

We're proud to be the Yorkshire-born food retailer who faithfully serves customers across the UK from Lands' End to John o' Groats, via our 500 stores and our online home delivery service.

We have 20 manufacturing sites that produce the freshest goods for our customers, from meat, seafood and dairy goods, to fruit and veg, bread and flowers. We have 6 distribution sites and a fleet of 2,000 vehicles, ensuring our goods are delivered to our stores in the finest condition.

We have over 110,000 colleagues across the business who work hard every day to deliver a first class service to the 11 million customers who pass through our doors each week. Our online service delivers to 11 million households reliably and with competitive, permanently low prices we're committed to helping our customers save money every day.

We are foodmakers and shopkeepers and #WeMakeMorrisons.

Everyone's Welcome

We celebrate diversity

We've worked hard to build a diverse and inclusive business where we can authentically represent the communities we serve, whilst not only supporting but celebrating what makes each and every person unique. Whoever you are and whatever your background, we want you to feel welcome, and feel comfortable in your own skin.

We champion diversity and are committed to continual learning and improvement when it comes to matters surrounding gender, ethnicity, race and religion. We want everyone to feel like they belong, and we take a zero tolerance approach to discrimination of any kind.

Our Locations

Where you'll find us

Produce

We're the UK's 2nd largest fresh food manufacturer with 20 manufacturing sites, and we put quality and customers at the heart of everything we do. We lovingly provide our customers with all kinds of produce from meat, seafood and chilled goods, to freshly baked bread, cakes and flowers. What produce you work with depends on your location, but you can rest assured that whatever your area, our friendly teams will make you feel right at home.

MEAT

We are still the only major supermarket to own its own abattoir and meat processing operations, giving us unique traceability and control over our supply chain. Our abattoirs are located in Spalding (Lincolnshire), Colne (Lancashire), and Turriff (Aberdeenshire), and we process in excess of 3,400 cattle, 15,000 lambs and 28,000 pigs each week, so it's a pretty extensive operation!

CHILLED GOODS

We have the UK's largest fresh foods factory in a state of the art site in Bradford, where we produce sliced cooked meats, quiches, pies, sausages rolls and more, all under one roof. We also have chilled goods sites in Greenside, Deeside & Winsford.

BAKERY

Our prestigious bakery site in Wakefield (West Yorkshire) produces 47 different products from hot cross buns, muffins, croissants, scones, crumpets and pancakes, to wraps, bagels, pittas and naans. Not forgetting our delicious range of fresh, everyday loaves!

SEAFOOD

Our seafood processing site is situated in Grimsby (Lincolnshire) and our latest site is in Falfish (Cornwall). We currently supply 110 different seafood and shellfish products including salmon, cod, haddock, tuna, mackerel, kippers, plaice, trout, monkfish, prawns and scallops. There are many other types of seafood to be found on our in-store fish counters, including some rare and wild species such as spider crab, wild seabass and seabream.

FRUIT & VEG, EGGS, FLOWERS

Our fresh produce sites prepare everything from apples, pears, strawberries and melons, to tomatoes, carrots, onions and potatoes. Eggs, nuts and seeds and fresh flowers are lovingly prepared at these sites too. We have produce sites in Carnoustie, Flaxby, Thrapston, Rushden, Gadbroom, Worsley, Cutler Heights, Chippindales, Lowlands Nursery, and Flowerworld.

Our

There are many exciting opportunities across our fast-paced sites, and we thank our colleagues for keeping things moving, day after day.

Typical manufacturing

- **Site Manufacturing, Operations & Technical Managers**
- **Shift Managers, Team Managers**
- **Warehouse Operatives**
- **Line Leaders**
(Warehouse and Production teams)
- **Reception staff**
- **People Managers, People**

Factories of the Future

Engineering our own future

So, here's how our engineers make Morrisons...

Why we're more than just a supermarket

- We **own** most of our supply chain
- We **make** the majority of the food we sell
- We **create** innovative products (like our food boxes)
- Engineering is at the **heart** of our business

What our Factories of the Future look like

- Continual **investment**
- **£multi-million** year on year investment programme
- **State of the art** machinery
- Reduced **carbon footprints**
- Enhanced **focus on automation**
- First class training and **career development**
- Genuine **career stability**
- **Competitive salary** and benefits package

Factories of the Future

Engineering our own future

What we do

Typical engineering roles at Morrisons include:

- **Engineering Department Manager**
- **Site Engineering Manager**
- **Engineering Shift Manager**
- **Automation Engineer**
- **Reliability Engineer**
- **Multi-Skilled Engineer**
- **Engineering Planner**
- **Engineering Stock Controller**
- **Maintenance Assistant**

We've grown to
20
sites across the UK

Our newest site is

Falfish

in Cornwall

We're home to
421
engineers

We're currently training
74
apprentices and future engineers

Our latest investment:
Over £13 million
for state of the art
Automation Machinery
at Thrapston

**Are you ready to be
part of a workforce
that's helping to
feed the nation?**
